TOWN OF RAYMOND

1994 Town Report Dedication

In recognition of her long and dedicated service as a public official, the 1994 Annual Report of the Town of Raymond is hereby dedicated to the memory of Phyllis A. Gove.

A bookkeeper by profession and a person of great trust, Phyllis shared her financial knowledge to the benefit of several individuals and community organizations throughout her lifetime in Raymond of more than eighty years. It was, however, her nearly half century of dedicated service to the Town of Raymond and Raymond School District as treasurer that is so remarkable.

Serving in both offices simultaneously for many years, she executed the responsibilities incumbent upon a "keeper of the funds" in a most conscientious manner. Guided by a sense of Yankee frugality, she held the purse strings tightly and took every opportunity to maximize the community's resources to the benefit of the taxpayers. Her knowledge and counsel, sought by countless town and school district officials over the years, will be missed.

It is with the everlasting thanks of a grateful community that we dedicate this annual report in her memory and say quite simply. . . . "Thank you, good and faithful servant, for a job well done".

RAYMOND FIREFIGHTERS

1994 TOWN REPORT THEME

Nineteen Ninety-four marked the 100th Anniversary of the Raymond Fire Department. On January 4, 1894, eighteen men formed the town's first fire company (Torrent Hose Company), after the fire of 1892 that demolished all of the downtown. This volunteer group has grown over the years to a roster of thirty-five members. They have acquired a large amount of firefighting equipment for the town and constructed the Old Fire House in the center of town with volunteer labor and materials during this time.

To celebrate this 100th Anniversary, a weekend full of activities, including a Firemen's Ball and Parade, was held in June. A great time was had by all.

The Town of Raymond extends its heartfelt thanks to all past and present firefighters for the lives and property you have saved thoughout these years.

Executive Reports

1994 ANNUAL REPORT
R A Y M O N D

Board of Selectmen

To the Citizens of Raymond:

1994 was a very successful year for the Town of Raymond. We have been fortunate to witness major industrial development plans, which coincide with the first goal -- the top priority for the Board of Selectmen -- in 1994.

The Board of Selectmen has adopted goals to achieve in 1994. These are outlined below, along with the progress that has been made on each.

1. INDUSTRIAL DEVELOPMENT - The Board has encouraged industrial development in town and, as you know, has been successful in luring the Wal-Mart Corporation to locate their $17 Million Distribution Center in Raymond. This will mean a reduction of approximately $2.50 on the tax rate once construction is complete, in 1996. In addition to this, the Board is currently working on further industrial development options to further attract industry to our town. The Raymond Industrial Development Corporation has published a business and industrial development brochure which is available to all interested parties. And finally, the town is currently working on a business and industrial development brochure computer diskette that will give developers even quicker access to the information they need about the Town of Raymond.
2. ECONOMIC DEVELOPMENT ADMINISTRATION DOWNTOWN REVITALIZATION - The project bid was awarded to Severino Company of Candia, N. H., and construction begins in the spring of 1995. It will involve the construction of handicap sidewalks in the downtown area, "turn-of-the-century" lighting fixtures, a new granite and iron fence around the Common, as well as landscaping and additional parking in the downtown area. Construction is expected to be completed by the end of the summer.
3. DUDLEY-TUCKER LIBRARY ADDITION CONSTRUCTION - The Library addition was completed in 1994 and is a spectacular addition to the town. Our heartfelt thanks go to the Library Trustees and Library Director for their hard work in supervision of this project.
4. COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM -The Town of Raymond was again successful in 1994 in its application to receive a $350,000 Housing Rehabilitation Grant for the rehabilitation of low to moderate income multi-family dwellings in the downtown area.
5. DEARBORN LAND EXCHANGE - The Board has finalized the exchange between the Dearborn Estate and the Town, in accordance with the Town Meeting vote of 1993. The Town now owns the 300-acre parcel known as the Dearborn Estate on Onway Lake.
6. Al S. WELCH BALLFIELD LIGHTING - The lighting of the Ai S. Welch field is continuing to be developed. Donated light poles are being evaluated as to their suitability for lighting structures. The donated value of these poles will be used as the

local share of the matching funds for the project. It is expected that the lights will be installed during the 1995 season.

7. CAMMETT AREA SOCCER/BALLFIELD PROJECT - This project to expand the usable area at the Cammett Complex has been moving along. Various military organizations have been contacted to help with the rough site work and earth moving. This work is expected to be completed in the summer of 1995. The project was the lucky recipient of thousands of yards of fill from another project -- the development of Carroll Lake Beach. The material was tested by an independent testing lab to insure that it didn't contain any hazardous materials.
8. OLD FIRE HOUSE RESOLUTION - It was made clear to the Board through comments received at Town Meeting, that the residents did not want the Old Fire House to be reduced in size at all. Given this fact, the Board has developed a ten-year plan to insure that the Old Fire House will be utilized "as is, where is". This involves a new roof and windows as well as removal of the underground tank no longer in use on the site. The Board has had several discussions about the future use of the Old Fire House and will be holding fund raising events to finance future projects scheduled for that building. In addition to this, the Board plans to hold more Public Hearings as to the uses of the Old Fire House in 1995 and in coming years.

In addition to these goals, the Board has continued to stress the importance of working together. We have held seminars with various Boards to improve communication. Addressing goals and having a solid team of players, including all of the dedicated town employees, makes for a town that you can be proud of.

Respectfully submitted,
Edward C. Varney, Chairman
Raymond Board of Selectmen

Raymond Board of Selectmen

Town Manager

To the Citizens of Raymond:

The Town of Raymond is still emerging from the recent recession. The year-end statistics show Raymond having a 4.2% unemployment rate in December of 1994. However, the Welfare Budget is still very high compared to the late 1980's. The grants awarded in 1994 totaled over $520,000. These grants are as follows:

Community Development Block Grant -- $350,000.00

The Town was awarded $350,000 to rehabilitate multifamily housing in the town center, as we have in previous years.

Department of Justice Police Officer Grant -- $138,142.00

This will provide two Police Officers to the Town of Raymond for a three year period. Seventy-five percent of the officers' pay is paid by the Federal Department of Justice, and the other 25% is paid by the town.

Library Services Construction Act (LSCA) Grant -- $22,613.00

The Library received the above amout to fund 50% of the purchase of the elevator in the addition. This grant made the new facility completely accessible to all Raymond residents.

U. S. Environmental Protection Agency (EPA) Grant -- $8,000.00

The Parks & Recreation Department was awarded the above amount by the U. S. EPA. This was to train High School students to teach environmental education to playground students.

Drug Abuse Resistance Education (DARE) Grant -- $5,028.00

The Police Department received funds to start a town-run DARE program in the Middle School. One Hundred and Forty-three students are participating.

Hazardous Waste Grant -- $2,178.00

As in previous years, the Public Works Department has received funds to allow disposal of Household Hazardous Waste once brought to the landfill.

Tree Grant -- $1,770.00

The Public Works Department received funds to purchase and plant a variety of trees in the New Pine Grove Cemetery.

We look forward to a bright 1995 as we finish implementing these grants and continue applying for further funds. Additionally, the new business and industrial development in town continues to add to our tax base. By 1997, we will have almost Twenty Million Dollars in increased tax base, thanks to the WalMart Distribution Center and other projects that are anticipated.

Respectfully submitted,
Martha S. Roy
Town Manager

Official Town Election

March 8, 1994

The Town of Raymond election was held at the Iber H. Gove Middle School Gymnasium on Tuesday, March 8, 1994. Moderator Kathleen Hoelzel opened the polls at 7:01 a.m. The moderator read the Town Warrant and stated it was posted by Town Manager Martha Roy on 2/18/94. The Assistant Moderator, Moderator Pro-tem J. Chandler Newton and all ballot clerks were sworn in. The Moderator offered a prayer and the flag of the United States was saluted. All ballot boxes were inspected and locked.

The Moderator announced the ballot clerks for the meeting as follows: The morning ballot clerks were Marilyn S. Semple, Donald P. Magoon, Assunta J. Ege, Frances G. Spinazzola, Marian E. Lovejoy, Elayne C. Clark, Sharon Malette, and Helene H. Wiggins. The afternoon ballot clerks took over at 12:45 p.m. and the following ballot clerks served: Sandra L. Ellis, Janice M. Lortie, Jane M. McGrane, Joyce C. Bishop, Catherine M. St. John, Mark W. Lagasse, Kathleen M. Stockley, and, at 3:00 p.m., Helena D. Cascio took over for Elayne Clark.

Supervisors of the checklist Robert Forsing, Patricia Forsing and Florence Bell were present.

The Moderator announced that the Absentee Ballots would be opened and processed at 1:00 p.m.

Assistant Moderator/Moderator Pro-tem J. Chandler Newton served from 4:00 p.m. until 8:15 p.m.

The Moderator declared the polls closed at 7:01 p.m.

Total number of regular votes cast:	636
Total number of absentee votes cast:	22
Total number of votes cast:	658
Total number of Registered voters on the checklist:	4,124

All write-ins were seven or less votes for one candidate.

Amendments to Raymond Zoning Ordinance as proposed by the Raymond Planning Board and by Voter Petition:

Article #2

To see if the people will vote to change the zoning of lot 28 of tax map 3 from Zone B (Residential/Agricultural) to Zone C.1 (Commercial).
(Inserted on a petition submitted by 25 or more registered voters.)
The Planning Board recommends a yes vote.

Yes	415
No	172

Article #3

To see if the town will vote to enact the following amendments to the zoning ordinance as proposed by the Raymond Planning Board.

Amendment #1

"Are you in favor of the adoption of AMENDMENT #1 proposed by the Planning Board for the Town Zoning Ordinance as follows:

To add to ARTICLE #1: notwithstanding the area, frontage setback or other dimensional requirements of this ordinance nothing in this ordinance shall be construed as restricting. limiting or otherwise prohibiting the sale, purchase, financing, or refinancing of any building or structure located on a pre-existing non-conforming lot as of the effective date of this ordinance or any subsequent amendment thereto. The Town of Raymond building inspector is authorized to issue a certificate confirming the applicability of this provision to any particular building or structure."

Yes	307
No	231

Amendment #2

"Are you in favor of adoption of AMENDMENT #2 proposed by the Planning Board for the Town Zoning Ordinance as follows:

To add to Article III Zone C.2 Map 6 Lot 76 and Lot 78 of the Raymond Tax Map."

Yes	322
No	207

Amendment #3

"Are you in favor of the adoption of AMENDMENT #3 proposed by the Planning Board for the Town Zoning Ordinance as follows:

To delete the Area and Dimensional Requirements for Zones C.1. C.2, and D in Article V and replace with the following: Zone C.1, C.2 and D shall be a minimum of 21,780 square feet. Zones C.1. C.2 and D shall require a minimum frontage of 50 feet. Zones C.1, C.2 and D shall require setbacks of a minimum of 15 feet for each front, (two) sides and back. This amendment shall become effective October 1. 1994."

Yes	291
No	220

Amendment #4

"Are you in favor of the adoption of AMENDMENT #4 proposed by the Planning Board for the Town Zoning Ordinance as follows:

To add to ARTICLE V the following: 7. All proposed commercial and industrial uses shall meet the performance standards contained in the Raymond Site Plan Review Regulations. This amendment shall become effective October 1. 1994.

Yes	348
No	167

Amendment #5

"Are you in favor of the adoption of AMENDMENT #5 proposed by the Planning Board for the Town Zoning Ordinance as follows:
To delete ARTICLE II DEFINITIONS Light Manufacturing and replace it with the following: Light Manufacturing: Those manufacturing activities which utilize materials manufactured elsewhere to mechanically produce or assemble a product, and to delete in ARTICLE IV ALLOWED USES under Special Exception in zone C.1 and C.2 Light Manufacturing consisting of assembly of parts manufactured elsewhere and no processing of raw materials and replacing it with the following: Light Manufacturing."

Yes	357
No	172

Article #4

To see if the Town will vote to enact the following amendments to the Flood Plain Ordinance as required by the Federal Emergency Management Association.

Amendment #1

"Are you in favor of the adoption of Amendment #1 proposed by the Planning Board for the Flood Plain Ordinance as required by the Federal Emergency Management Association as follows:
To add the following definition: "Recreational Vehicle" means a vehicle which is (A) built on a single chassis; (B) 400 square feet or less when measured at the largest horizontal projection; (C) designed to be self propelled or permanently towable by a light duty truck; and (D) designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational camping travel or seasonal use."

Yes	391
No	162

Amendment #2

"Are you in favor of the adoption of Amendment #2 proposed by the Planning Board for the Flood Plain Ordinance as required by the Federal Emergency Management Association as follows:
To add a new sub-part D as follows: Recreational vehicles placed on sites within Zones A1-30, AH and AE shall either (I) Be on the site for fewer than 180 consecutive days, (II) Be fully licensed and ready for highway use, or (III) Meet all standards of Section 60.3 (B) (1) of the National Flood Insurance Program Regulation and the elevation and anchoring requirements for "Manufactured Homes" in Paragraph (c) (6) of Section 60.3."

Yes	378
No	175

The Moderator read the results of the Town Election and Zoning Ordinances. She announced that the last day to request a recount on the Town Election Article #1 Town Officials is Friday, March 11 at 5:00 p.m.

The meeting was recessed at 9:05 p.m. and will reconvene at 10:00 a.m. on March 12, 1994, Raymond's Town Meeting, at the Iber Gove Middle School Gymnasium.

Annual Town Meeting

March 12, 1994

The Annual Town Meeting of Raymond, N. H. was called to order by Moderator Kathleen Hoelzel at 10:00 a.m. at the Iber Holmes Gove Middle School gymnasium.

Introduced were the Board of Selectmen: Edward Varney, Chairman, Neal Welch, Roberta Johnson, June Hartford, and Michael Quintal; Town Manager Martha Roy; Town Clerk/Tax Collector Gloria E. Carney; Deputy Town Clerk/Tax Collector Doris Gagnon; Budget Committee members Elizabeth O'Donnell, Mark Lagasse, Harold Wood, David Hoelzel Jr., Delmar Anderson and Sally Paradis. James Murphy, Raymond's new Police Chief was also introduced. Supervisors of the Checklist present were Robert Forsing, Patricia Forsing, and Florence Bell. The Ballot Clerks were: Sandra Ellis, Joan King, Frances Carlberg, Elizabeth Sylvia, Marilyn Semple, Assunta Ege, Helena Cascio, and Kathleen Szczepanik. The Assistant Moderator was Andrew Harmon. The ballot boxes were inspected and locked.

Supervisor of the Checklist Patricia Forsing offered a prayer and Boy Scout Troop 100 made a Presentation of Colors. The flag of the United States was saluted and the National Anthem was sung by Jen Barnaby; accompanist was Sandra Ellis.

The Moderator announced that a pink voting card with the letter "B" would be used for voting and for identification purposes for speaking at the meeting and she outlined the "Rules of Order" as follows: A show of cards for voting; when a question is moved, anyone already at the microphone would be allowed to speak. Seven voters' signatures are needed once a vote is called, however, only five voters' signatures prior to a called vote. Procedural questions will be resolved before the meeting proceeds.

Article #1

To see if the Town will vote to raise and appropriate the sum of Three Million, Six Hundred Eighty-six Thousand, Eight Hundred Ninety Dollars ($3,686,890.00) to defray Town charges for the year ensuing. Said sum is exclusive of Special Articles No. 8, 9, 11, 12 and 13. (Recommended by the Budget Committee.)

A motion was made by Michael Quintal that the town raise and appropriate the sum of Three Million Seven Hundred Fifteen Thousand, Nine Hundred and Thirty Dollars ($3,715,930.00) to defray town charges for the year ensuing. The motion was seconded by Edward Varney.

A motion was made by Budget Committee member Elizabeth O'Donnell to raise and appropriate the sum of Three Million, Six Hundred Thousand, One Hundred Thirty-three Dollars ($3,600,133.00) to defray Town charges for the year ensuring. Said sum is exclusive of Special Articles No. 8, 9, 11, 12, and 13. The motion was seconded by Mark Lagasse.

Discussion was held regarding the differences between the budget moved by the Selectmen and the Budget Committee budget. Ronald Chapman and Andrew Sylvia moved the question on the amended Article #1.

The vote on amended Article #1 was in the NEGATIVE.

Yes 83 No 98

A motion was made by Lyman Hammond, Jr., to reduce the Town operating budget by $26,751.00 to eliminate the Public Works Director position and salary. This represents nine months' salary, April through December. A full year would be $35,668.00 or $686 per week. Due to the nature of this amendment, we feel in all fairness to the voters that this should be voted on by secret ballot. The bottom line figure will then be $3,600,133 less $26,751 equals $3,689,279. (signed by seven voters.) This motion was seconded by Calvin Warburton. After much discussion, Lyman Hammond, Jr., and Calvin Warburton agreed to withdraw the motion.
A motion to move the question was made by Roger Retzke and seconded by Andrew Sylvia.
The vote on Article #1 was in the AFFIRMATIVE in the amount of $3,715,930.

Article #2

Shall the Town accept the provisions of RSA 31:95-B providing that any town at an annual meeting may adopt an article authorizing indefinitely, until specific rescission of such authority, the Selectmen to apply for, accept and expend, without further action by the Town Meeting, unanticipated money from a State, Federal or other governmental unit or a private source which becomes available during the fiscal year? This authorization will remain in effect until rescinded by a vote of the municipal meeting.
A motion was made by June Hartford to have the Town accept the provisions of RSA 31:95-B provideding that any town at annual meeting may adopt an article authorizing indefinitely, until specific rescission of such authority, the Selectmen to apply for, accept and expend, without further action by the Town Meeting, unanticipated money from a State, Federal or other governmental unit or a private source which becomes available during the fiscal year? This authorization will remain in effect until rescinded by a vote of the municipal meeting. The motion was seconded by Neal Welch.
The vote of Article #2 was in the AFFIRMATIVE.

Article #3

To see if the Town will vote to authorize the Board of Selectmen to accept gifts or personal property, other than cash, to the municipality for any public purposes. This authorization in accordance with RSA 31:95-e shall remain in effect until rescinded by a vote of the municipal meeting.
A motion was made by Roberta Johnson to see if the Town will vote to authorize the Board of Selectmen to accept gifts or personal property, other than cash, to the municipality for any public purposes. This authorization in accordance with RSA 31:95-e shall remain in effect until rescinded by a vote of the municipal meeting. The motion was seconded by Neal Welch.
A motion was made by Timothy Louis that no action shall be taken without a public hearing first being held. The motion was seconded by J. Chandler Newton.

The vote to amend Article #3 was in the AFFIRMATIVE.
The vote on the amended Article #3 was in the AFFIRMATIVE.

Ann Kitchen moved a procedural issue to limit debate on a question (warrant or amendment) that has been moved to a maximum of 10 minutes after the motion to move the question has been made. The motion was seconded by Nathan Pearce.
The vote to limit time of discussion was in the NEGATIVE.

The Moderator recessed the meeting for a fifteen minute lunch break.
The meeting reconvened at 2:02 p.m.

Article #4

Shall the Town accept the provision of RSA 33:7 providing that any town at an annual meeting may adopt an article authorizing indefinitely, until specific rescission of such authority, the Selectmen to issue tax anticipation notes?
Michael Quintal moved that the Town accept the provision of RSA 33:7 providing that any town at an annual meeting may adopt an article authorizing indefinitely, until specific rescission of such authority, the Selectmen to issue tax anticipation notes. The motion was seconded by Roberta Johnson.
The vote on Article #4 was in the AFFIRMATIVE.
Stephen Keith moved for reconsideration of Article #4. The motion was seconded by Harold Wood.
The vote to reconsider Article #4 was in the NEGATIVE.

Article #5

To see if the Town will vote to authorize the Selectmen to transfer tax liens and convey property acquired by the Town by Tax Collector's Deed by public auction (or advertised seal bid) or in such other manner, as determined by the Selectmen as justice may require, until rescinded.
Edward Varney moved that the Town vote to authorize the Selectmen to transfer tax liens and convey property acquired by the Town by Tax Collector's Deed by public auction (or advertised seal bid) or in such other manner, as determined by the Selectmen as justice may require, until rescinded. The motion was seconded by June Hartford.
The vote on Article #5 was in the AFFIRMATIVE.

Article #6

By request of the Trustees of Trust Funds: To see if the Town will vote to accept any and all additions to existing trust funds made during the previous year, until rescinded.
June Hartford moved that the Town vote to accept any and all additions to existing trust funds made during the previous year, until rescinded. The motion was seconded by Roberta Johnson.

Stephen Keith moved that this authorization remain in effect until rescinded by vote of the municipal meeting. The motion was seconded by Timothy Louis.
The vote to amend Article #6 was in the AFFIRMATIVE.
The vote on the amended Article #6 was in the AFFIRMATIVE.

Article #7

Shall the Town accept the provisions of RSA 202-A:4-c providing that any town at an annual meeting may adopt an article authorizing indefinitely, until specific rescission of such authority, the public Library Trustees to apply for, accept and expend, without further action by the Town Meeting, unanticipated money from a State, Federal or other governmental unit or a private source which becomes available during the fiscal year?
Michael Quintal moved that the Town accept the provisions of RSA 202-A:4-c providing that any town at an annual meeting may adopt an article authorizing indefinitely, until specific rescission of such authority, the public Library Trustees to apply for, accept and expend, without further action by the Town Meeting, unanticipated money from a State, Federal or other governmental unit or a private source which becomes available during the fiscal year. The motion was seconded by Neal Welch.

Town Clerk/Tax Collector

In 1994, your office of Town Clerk/Tax Collector processed the highest volume of both taxes and Town Clerk fees in the history of the town. Tax collections for the year were $10,441,229.99 and Town Clerk fees, for the most part having to do with vehicle registrations, were $597,494.28. This collection activity, with water billing collections totaling $11,229,110.02, although quite substantial, will no doubt be surpassed in the near future, as the town continues to grow. We do need updating of the present computer system to handle this anticipated volume.

I have been your Town Clerk/Tax Collector for 13 years, having started employment in 1981 as Deputy. In this period of time, I have tried to make your dealings with my office a pleasant and helpful experience for you. In the process I have made many hopefully lasting friendships which made my job easier and very enjoyable.

During these years many times it necessitated long hours and I would like to thank my husband for his understanding. Thanks also to all of my co-workers. I now feel it is time to step down and enjoy my family and pursue other interests, so I will be retireing after Town Meeting this year.

I would like to express my sincerest appreciation to all of the Raymond community for your support and many kindnesses during my several terms of office. May each of you enjoy the very best.

Respectfully submitted,
Gloria E. Carney

Auditor's Report

To the Board of Selectmen
Town of Raymond, New Hampshire

We have audited the general purpose financial statements of the Town of Raymond, New Hampshire as of and for the year ended December 31, 1994, and have issued our report thereon dated February 7, 1995.

In planning and performing our audit of the general purpose financial statements of the Town of Raymond, N. H. for the year ended December 31, 1994, we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide assurance on the internal control structure.

The management of the Town of Raymond, N. H. is responsible for establishing and maintaining an internal control structure. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Because of inherent limitations in any internal control structure, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operation of policies and procedures may deteriorate.

For the purpose of this report, we have classified the significant internal control structure policies and procedures in the following categories:

Accounting Applications

- Budget
- Revenues and receivables
- Payroll and related liabilities
- Debt and debt service expenditures
- Cash and investments
- Expenditures of goods and services and accounts payable
- Single audit and similar grant programs

For all of the internal control structure categories listed above, we obtained an understanding of the design of relative policies and procedures and whether they have been placed in operation, and we assessed control risk.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a reportable condition in which the design or operation of one or more of the internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the control structure and its operation that we consider to be material weaknesses as defined above.

This report is intended for the information of management and the Board of Selectmen, however, this report is a matter of public record and its distribution is not limited.

Department & Committee Reports

1994 ANNUAL REPORT
R A Y M O N D

Police Department

The year 1994 has been one of innovation, change and excitement at the Raymond Police Department. While our goal to public service has not changed, many of the methods and programs have. We have attempted to give the taxpayer of Raymond good value for the money spent on their police department.

Programs that have been implemented in 1994 include:

D.A.R.E. program, Bicycle Patrol, Police Explorer Post, "Awareness Night", Detective postion, Bicycle Safety Rodeo in Cooperation with the Raymond Police/Dispatch Association, Police Color Guard, promotion of two officers to the rank of Sergeant, update and extensive revision to the Standard Operating Procedure Manual of the Raymond Police Department, Physical Fitness Program for Police Officers, closer relationships with the Raymond School system, recipient of a federal grant to hire two additional police officers, and cruiser color change in an effort to update and enhance public image.

We feel we have accomplished much in 1994, but there is still much work to be done. Updating equipment in relation to officer safety and information processing are a priority for 1995. Much of our equipment has gone beyond its serviceable life and this is reflected in equipment requests for 1995.

We at the Raymond Police Department feel that in the last year we have brought a sense of pride and a feeling of honor to the Town. As police departments generally are the most visible ambassadors of town government, we recognize this responsibility to be exemplary in our conduct and open and honest in our dealings with the residents/taxpayers.

Respectfully submitted,
James C. Murphy

Last year was a very busy year with 310 calls. We have almost reached a call a day. This puts extra strain on the emergency responders. The number of runs in past years were:

1993	236	1992	182	1991	283
1990	206	1989	227	1988	207
1987	170	1986	187	1985	144

You will notice a new statistic in the above list - carbon monoxide. Early this year Captain Hammond brought to the Fire Association the need for a CO Monitor. The Association was swift in purchasing the new monitor with money raised from Christmas tree sales. Since then we have used it several times, twice identifying life threatening levels of CO.
The following men have retired during the past year: Deputy Chief Donald Tenney; Fire Fighter/Truck Driver Ralph Brown; and Firefighter/Dispatcher Vance Ryan. Combined years of service from these three dedicated firefighters totals over 70 years. We will miss their experience and presence in the future.
The new tank 1 has been in service for a year, has been to over 20 structure fires and is working out very well. We have participated in several trainings. With all the time we have practiced, the department can shuttle very well.
The department celebrated 100 years of service, started in 1894 after an 1892 fire destroyed 25 buildings in the town center. Firefighters, their wives, retired firefighters and former chiefs all gathered to help. Businesses and residents assisted with the History program and clothing items. The celebration weekend was filled with music, food, fire trucks, a Muster, children and friends. I would like to personally thank every one that made this weekend the best celebration of the department's history.

Yours in Fire Protection
Kevin Pratt, Fire Chief

Public Works

An extremely busy year was once again experienced by all Public Works Departments due to significant and unprecedented snowfall. The Highway Department began the year by tackling week after week of back to back snow storms for a total of approximately twenty-four significant winter storm events. After a brief hiatus for mud season, the Department leapt into a frenzy of road improvement activities which resulted in improvements to Abbey, Sesame, Sun Hill, Elsun, Darren, Riverside, Holly, Cote, Plains and Prescott Roads. In addition, one-half of Ham Road was reconstructed and one-quarter of Critchett Road. These improvements were made possible by a significant increase in the road improvement line item budget sum. The Highway Department was also able to make a number of small drainage improvements to area roadways plus a continuation of the roadside mowing program. A new program of road sweeping was begun and will hopefully be expanded upon.

The Water Department was equally busy, contracting services out for the cleaning and redevelopment of production wells #1 and #2. Also, in conjunction with the Highway Department, the pipe work necessary to facilitate the installation of a Booster Pump Station was installed in the Sun Hill development.

You may have noticed a number of changes at the Raymond Landfill; not the least of which is that it no longer is a landfill. As of approximately mid year, all land application of solid waste was curtailed. While this has increased operating costs, it is anticipated to result in a large cost avoidance for landfill capping and lining expenses. Also new this year was the addition of newspaper and cardboard trailers. These trailers have allowed for additional capacity in the recyclable trailer and therefore reduced handling costs. Once again the Solid Waste/Recycling Committee hosted a Paint Swap and Hazardous Waste Collection in conjunction with the town of Chester. Both events were quite successful.

The Building and Grounds Department coordinated a number of improvements to the town's facilities such as painting of the Old Fire House, replacement of the fire alarm system at the Highway Garage, rapid entry key boxes for the Town Office and Highway Complex, repainting of the Police Department interior walls, panic alarms in the Town Offices, storage shelving in the Old Fire House, tamper covers for thermostats and additional exterior lighting at the Safety Complex to name but a few.

As in the past, I wish to identify and thank a group of unique individual without whose efforts we could not operate. They are the approximately thirty workmen who work for the Department during snow emergencies, road improvement projects, and whenever the need arises for additional resources. Without their dedication to the good of the Town of Raymond, our jobs could not be performed.

Respectfully submitted,
Dennis McCarthy
Public Works Director

Dispatch Center

This past year was full of changes for the Communications Center. Judy Van Zant, Head Dispatcher, left Raymond and went to work for the State 911 project as liaison to the communities of New Hampshire. All of us at Dispatch wish to thank Judy for her dedication and the much needed improvements she contributed to in the center.

We replaced the police base radio this year, which has greatly improved communications between Dispatch and the officers on the road. We look forward to replacement of the fire base in 1995. We also have been working on other improvements such as: computer aided dispatch system, remote radio site, and a basic operating procedures manual.

In order to keep the Dispatchers' expertise up to date, we have instituted an in house training program. Full time dispatchers will be required to have at least 20 hours of training and part time dispatchers, 15 hours.

We would like to thank the following departments for their continued cooperation and support: the citizens of Raymond and Fremont, Raymond Fire Department, Raymond Ambulance, Raymond Police Department, Raymond Highway Department, Raymond Water Department, the Selectmen, Town Manager, all the employees at the Town Office, Fremont Fire Department, Fremont Rescue Squad, Rockingham County Sheriffs Department, New Hampshire State Police, Epping Police Department, and all the other public safety agencies we work in conjunction with throughout the year.

I would like to extend my personal thanks to the Dispatchers who work in the Communications Center, for their dedication to the citizens of Raymond and Fremont and to the profession. They are:

Barbara Mullaney
Pauline Gordon
Christine Maclean
Fred Trofatter
Betty Gallison
Jeff Buskey

1994 Statistics

Raymond Police Department calls dispatched:	6,750
Fire, Ambulance and Rescue calls dispatched:	983

Respectfully submitted,
Nancy E. Rice,
Head Dispatcher

Recycling and Solid Waste Committee

In 1988, after the completion of the Town's first five year solid waste contract, bids were solicited for the new term. These significantly higher bids prompted the Board of Selectmen to pursue a shorter contract term to allow the Town to pursue disposal alternatives.

Timeline:

1989 - Article 12 on the Town Warrant had passed, establishing a committee to investigate alternative methods for the disposal of solid waste and septage, and to report their findings and recommendations at the annual Town Meeting. The Solid Waste Study Committee met for the first time in May. Over the course of numerous meetings, it recognized the need to look at several areas of the solid waste problem:

1. A safe and economical location to take all the Town's solid waste including hazardous waste, demolition debris, residential and commercial wastes.
2. The reduction of the waste stream through recycling and the control of certain burnable debris such as yard waste and wood products.
3. The current solid waste contract has a large portion of costs relating to transportation. Information should be gathered about public collection programs.
4. The plan for the removal from service and capping of the current landfill.
5. Short and long term plan for the disposal of septage.

1990 - Item 2 was addressed in March. The Committee submitted its Findings and Recommendations to the Town. Among these was the State belief that recycling was absolutely necessary to maintain and improve the quality of life in New Hampshire. The Committee supported this as well as the creation of a Recycling Subcommittee to obtain grants and establish recycling programs that would supplement but not duplicate or hinder the final disposal method of solid waste the Town chose. In order to gain public input, a solid waste disposal study was conducted. 3,500 questionnaires were mailed with 1,177 returned. Deep-felt feelings for the environment were expressed, with recycling seen as essential. Grants were obtained for the purchase of the mesh trailer and comingled can recovery began. The Committee met with schools to discuss their options.

1991-Recycling program expanded to include plastics, glass, corrugated cardboard, and newspaper. Recycling bins were donated to the schools to assist in their efforts.

1992- Item 1 became the priority. A paint swap and household hazardous waste (HHW) collection was planned for the following year. Hannaford Brothers sponsored the new recycling flyer, *"Throwing it Out With the Trash"*.

1993-Epping, Chester and Deerfield participated in HHW collection. Paint Swap held -- 1st ever in New Hampshire. HHW Collection was a success. Waste Oil collection began at landfill.

1994-Item 4, Landfill closed and became a transfer station. Information regarding solid waste and recycling was exchanged with Candia, Chester, Fremont, Kingston and Nottingham. Second Pain Swap and HHW collection were held with Chester. Glossy magazines are added to the recycling program at the landfill.

1995-A third paint swap and HHW collection are planned. Regarding Item 3, overall the costs are similar between private and commercial haulers. Item 5 continues to be handled by private enterprise.

On behalf of the Committee, I'd like to thank the townspeople for their support. In 1994 alone, we recovered over 86 tons of recyclables and 144 tons of scrap metal -- remarkable results for a voluntary program !

Respectfully submitted,
Kathleen Chamberlain
Committee Chairman

Building & Health

1994, What a year it was! As I am sure you are all aware, a fair amount of my time has been devoted to the planning and negotiations for the siting of the Wal-Mart distribution warehouse on a former portion of the Pine Acres Campground and Luie Morse properties. This particular project is the largest Raymond has even seen and may well be the largest for some time to come. As of the writing of this report, Wal-Mart has received their conditional approval from the Planning Board and we will soon enter into the actual construction process.

The department's normal plans review, permitting, and inspection services were completed, although much juggling of the schedule had to be done to accommodate Wal-Mart's needs.

There appears to be a definite upswing in construction in general. Contractors are once again building both commercial/industrial and residential projects. Interest in zoning questions and plans review have risen dramatically. It would appear 1995 will be a very busy year.

Current projects under construction or recently completed are:

- N. H. Electric Co-operative's new office and garage
- Pure Products water bottling and bulk water sales facility
- Texaco's new automated vehicle wash facility
- Paige's auto and equipment repair facility
- Pine Acres Campground's 8 various buildings
- The Pines Restaurant (after fire renovations)
- H & M Properties 7-unit total building rehabilitation
- Pilgrim Inn 16-unit building renovation
- Completion of the renovated town library

These are just a portion of the year's projects. In all, just over $23,000.00 in various permit fees were collected.

I would like to again say thank you to the residents of Raymond for an opportunity to work for and with you in the continued development of your community.

Sincerely,
Richard J. Mailhot
Building/Health Officer

Forest Fire Warden

All outside fires are required by law to have a written permit from a Fire Warden or Deputy, with the exception of total snow-covered ground or steady rain. Just call 895-3321 for the permit.

A reminder that the State of New Hampshire and the Raymond Fire Department take outdoor burining very seriously. Failure to comply with State Fire Permit laws can result in fines and prosecution.

On the 4th of July weekend, firefighters from Deerfield, Nottingham and Raymond spent all night Sunday and the next Monday morning one and a half miles in the woods, putting out a fire that probably had started from an unextinguished camp fire. After leaving the first fire, we responded to a woods fire off of the Chester Road, and spent the rest of the day on it. The second fire was caused by "bottle rockets". *All flying fireworks are against the law in New Hampshire.*

The following are the Firefighters of the Raymond Fire Department:

Wayne Welch, Deputy Chief
Paul Welch, Deputy Chief
Mike Williams, Captain
Bill Holtt, Captain
Jason Rollins, Lieutenant
Keith Mulholland, Lieutenant
Paul Hammond, Captain
Chan Newton, Chaplain
Mike McCarthy, Secretary
Darren Ryan, Treasurer

Kevin Pratt, Fire Warden

Conservation Commission

This year the Conservation Commission broadened its knowledge and extended its activities.

We held discussions with Fire Chief Pratt on water and fire management, and with Police Chief Murphy on the theft of natural resources and prosecution procedures.

We supported the efforts of the solid Waste and Recycling Committee through hands-on assistance at their annual Paint Swap weekend and their annual Household Hazardous Waste Collection weekend. We plan to continue our hands-on assistance.

We apportioned Conservation Funds for a joint railroad bridge repair project with the State and Town through Public Works Director McCarthy.

Our other activities for the year included reviewing and intervening on several Wetland Permit applications. We also inspected suspect activities in violation of Wetlands and Water Supply and Pollution Control regulations. Again this year, photographs (over 500 of them) have proved invaluable to pursue these issues and support our findings. Next year we will research aerial photo use to assist our investigation efforts.

We attended the annual meeting of the N. H. Association of Conservation Commissions and completed member training in the N. H. Method to Evaluate Wetlands. We will soon be designing and implementing evaluation schemes best suited for Raymond; we will most definitely be looking for volunteers to help us.

Another step coming to completion is our management plan for the town's Conservation Land. Through the efforts of the Selectmen, Town Manager and Planning Board, the Flint Hill Conservation property and the Dearborn Wilderness property transactions should be finalized this year.

These and other town properties will require a great deal of work and dedication. This commission is up to the challenge and invites you to join us.

Respectfully Submitted,
Kathleen Stockley
Chairperson

Russell A. Ege
1923-1995

A Salute to Russ,
faithful Conservation Commission member 1989-1995. We'll miss you.

He also served Raymond as a member of:

**** Board of Selectmen * Auditor***
**** Cemetery Trustee * Water Board***
**** Zoning Board of Adjustment***
**** Founding member of Raymond Historical Society***

Planning Board

This past year has been a very busy and productive one for the Planning Board and the Town of Raymond. Our largest project, of course, was the Wal-Mart Distribution Center, which will be located on the former Pine Acres Campground site. The Distribution Center will consist of 1.2 million square feet and is the largest project in the State of New Hampshire. The Board worked for several months with officials from Wal-Mart toward this goal. There were numerous Public Hearings and many hours of work to bring the project to Raymond. Raymond is moving ahead and we are proud to say thank you to the people of Raymond for your supportive comments during the Planning Process. A special thanks to our support staff for the work they did on this project!

The Planning Board also held, for the first time, a seminar on the new Performance Standards. It is the goal of the Planning Board to provide as much information as possible regarding regulations, requirements and procedures. Our office staff is available on a regular basis for any questions or comments you have.

The Planning Board will continue to strive for excellence in Planning in 1995.

Respectfully submitted,
Diane E. White, Chairman
Raymond Planning Board

Bette Patterson & Steve Sloan won awards from the Office of State Planning for the Planning Board "Outtakes" Newsletter and an Honorable Mention for Planner of the year (15 years service) respectively.

Raymond Ambulance, Inc.

We, the members of Raymond Ambulance, Inc., (RAI) would like to express our gratitude to the people of Raymond for their outstanding support throughout the past year. RAI welcomed on board this year three licensed paramedics -- Thomas Russell, Paul Gomes, and Peter Malvey. They are highly trained professionals who can give our patients the best possible care in a shorter amount of time. Our newest acquisition, of new ambulance 41A1, was made with a great deal of thought and specifications. Having three ambulances has meant a reduction in the need for mutual aid ambulances. This has allowed us to better meet the needs of the community. 41A1 is manned 40 hours a week, Monday through Friday, 8 a.m. to 4 p.m., with paid employees. From 4 p.m. to 8 a.m. on weekdays, the ambulance is covered by licensed, assigned volunteers, and on weekends two ambulances are scheduled with assigned crew members.

Our call volume has increased to an all time high this year with 987 calls; Exeter ALS Team responded to 221 with 104 cancellations -- a total of 117 calls for which service was rendered. There are 22 members serving the town. Several members serve as part-time employees and volunteer members. Many of our members also hold other, outside positions. They continually train to upgrade and keep their certifications and skills current. Along with volunteer time, they average 80 hours or more per month.

To qualify as attendants, applicants must attend classes and successfully pass AFA, State and/or National Registry of EMT's, written and practical examinations. This training consists of 80-400 hours to be fully trained and certified. AFA's must recertify every 3 years; EMT's must recertify every 2 years and have a total of 64 hours of continuing education to continue to serve as EMT's and AFA's. CPR must be recertified on an annual basis. All of this time, training and service to you would not be possible without the love, understanding and support of the families of RAI members.

The membership would also like to express its gratitude to Raymond Dispatch, Police and Fire Departments; Fremont Rescue and Fire Department; Deerfield Rescue and Fire Department; Rockingham Dispatch; Epping Ambulance; and Exter Hospital ALS for their continual help, support and professionalism.

RAI has started community CPR classes, sponsored Fatal Reality, a Red Cross blood drive, and a pancake breakfast. We have started an Explorers Post with 5 Explorers.

Dudley-Tucker Library

On May 23, 1994, the Trustees and staff of the Dudley-Tucker Library welcomed the community to the dedication and open house of the enlarged and renovated library. This day was the culmination of 8 years of need and preliminary planning, 1 year of intensive planning and 7 months of construction. Members of the State Library, who joined us on May 23rd, were impressed with our finished project. They are using the Dudley-Tucker Library as an example of what can be done with a quality architect and contractor, community support and a limited amount of money. We have already given several tours to library boards from communities planning library expansion projects.

One of the major goals for our new space was to provide creative and regularly scheduled children's programming. We now offer story-time programs, bedtime story-time, summer and family reading programs and imaginative seasonal and activity displays. The 1994 Summer Reading Program was our most successful ever. Two Hundred Forty-two registrants read 3,159 books!

Adult programming has begun. We've heard from local author Gertrude Dannis and explored "haunted places" with nationally recognized author Norm Gauthier. Check your newspapers for announcements of events happening in 1995.

I would like to publicly thank the exceptional efforts made by the staff in organizing and opening the library: Linda Hoelzel, Assistant Librarian; Patricia Currier, Children's Librarian; Elizabeth Wynne, Story-time Coordinator/Aide; and aides Elaine Schmottlach, Danielle Lortie-Stevens and Melissa Pitman. Meri-Lyn Rousseau keeps our building looking as good or better than the day we opened. Volunteers help keep this ship afloat. Special recognition needs to be given to Karen Currier, Pauline Mongeon, Evelyn Dow, Matthew Chagnon, Michelle Lavoie, Catherine Fancher, Mary Deflumeri, Danielle Hayes, Linda Kydd-Keeler, Charles Collins and the Friends of the Library.

Sherry Brox
Director

Parks & Recreation Department

How can it be time for the 1994 Town Report already? I just did my 1993 Town Report! Oh, I'm late. Where has the year gone?

Nineteen ninety-four marked the celebration of thirty-five years of summer playground activities (and my 18th summer, but who's counting anyway?). There have been many changes over the years and the '95 season saw the biggest changes yet. We reorganized the playground to provide a better program for the 399 children that participate each year. Dividing the program accomplished this by isolating the program into two age groups with almost totally separate programs. What this meant was that we were often sending out field trips, which occur four days a week, consisting of three bus loads of children. In all there were thirty-four trips scheduled during the seven weeks of the playground season.

The swim program also underwent some changes designed to fit into the switch to the new beach that we expect to complete in the spring of 1995. The beach construction that got underway in earnest in the fall of 1994, would not be as far along as it is were it not for the hard work and generous donations of Coastal Materials. They can do in a few weeks what would have taken us months, and a great deal of cash, to accomplish. On top of this, they donated all of it to the project. Federal funds will match this donated value to complete the project.

An unexpected benefit from this project was the large volume of fill and organic material that was stockpiled at the site of the new soccer field at the Cammet Complex. The material will be used to fill the large depression at the site and the organic dredged material, that was thoroughly tested by a qualified testing lab, will be used to supplement the topsoil, for sod growth. This project, also part of a Land and Water Conservation Funds Grant, is expected to be completed in the spring of 1995.

Most of our programs have continued their overwhelming successes. From O. M. and Peer Theater to basketball and soccer, recreation is alive and doing well here in Raymond. Our program is recognized as one of the most innovative and progressive of the small town recreation departments in the state, and I think there are a couple of reasons for this. First, residents recognize the importance of a good recreation program and actively take part in activities offered. People in the recreation field like it when they throw a party and people show up. Next, people in Raymond have a personal pride in their recreation program. They have this pride for good reason. They are the recreation program.

The most dynamic recreation department would be quite blasé if it weren't for willing, active participants in its programs. Here, we go one step further because we not only have participants, but caring and concerned volunteers and supporters, without whom there would be no recreation. Nothing fosters good ideas and creativity more than support for the things we already are doing.

Thanks for another great year.

Respectfully submitted,
Richard C. Bates, Director
Raymond Parks & Recreation

Town Budget & Warrants

1994 ANNUAL REPORT
R A Y M O N D

THE STATE OF NEW HAMPSHIRE
THE POLLS WILL BE OPEN FROM 7AM TO 7PM

To the inhabitants of the Town of Raymond, in the County of Rockingham, in said State, qualified to vote in town Affairs:

You are hereby notified to meet at the Iber Gove Middle School Gymnasium in said Raymond, on Tuesday, the Fourteenth day of March, 1995 at seven of the clock in the forenoon, to act upon the following subjects:

ARTICLE #1

To choose all necessary Town Officers for the year ensuing.

ARTICLE #2

To see if the Town will vote to enact the following amendments to the Zoning Ordinance as proposed by the Raymond Planning Board.

Amendment #1

"Are you in favor of the adoption of AMENDMENT #1 proposed by the Planning Board for the Town Zoning Ordinance as follows:

To delete Section 6.5 SIGNS in Article VI-SPECIAL PROVISIONS and replace it with a new Section 6.5 SIGNS containing a revised set of Definitions, Permits, Non-Conforming Uses, Size, Type and Location requirements for Signs."

Amendment #2

"Are you in favor of the adoption of AMENDMENT #2 proposed by the Planning Board for the Town Zoning Ordinance as follows:

To Adopt the enactment of a local BUILDING CODE, as allowed by NH R.S.A. 674:51, in compliance with Sections I, II, III inclusive for the construction, remodeling, and maintenance of all buildings and structures in the Municipality. To include the adoption of B.O.C.A. NATIONAL BUILDING CODE, 1993, TWELFTH EDITION, THE B.O.C.A. NATIONAL FIRE PROTECTION CODE, 1993, NINTH EDITION, THE B.O.C.A. NATIONAL PLUMBING CODE, 1993, NINTH EDITION, THE B.O.C.A. NATIONAL MECHANICAL CODE, 1993 EIGHTH EDITION, THE B.O.C.A. NATIONAL MECHANICAL CODE, 1993, EIGHTH EDITION, THE NATIONAL ELECTRICAL CODE, ANSI/NFPA 70, 1993 EDITION as allowed by NH R.S.A. 674:52,I pursuant to NH R.S.A. 674:51 and that all commercial (to include MULTI-FAMILY Housing) and Industrial uses newly constructed shall be fully sprinkler protected in compliance with NFPA 13 (the standard for the installation of sprinkler systems) Design Criteria, and the adoption of the provisions of NH R.S.A. 674:52, VI which allows a simplified process for nationally recognized codes revision and update adoptions. And to Delete ARTICLE 7.1 ADMINISTRATIVE PROCEDURE, SECTION G upon its passage".

ARTICLE #3

To see if the Town will vote to enact the following amendments to the Flood Plain Ordinance as required by the Federal Emergency Management Association.

Amendment #1

"Are you in favor of the adoption of AMENDMENT #1 proposed by the Planning Board for the Flood Plain Ordinance as required by the Federal Emergency Management Association as follows:

To add to the Floodplain Development Ordinance, in accordance with the National Flood Insurance Program, under Item I, Definition of Terms the following new definitions: FEMA, Flood or Flooding, Functionally Dependent use, Historic Structure, Substantial Damage."

Amendment #2

"Are you in favor of the adoption of AMENDMENT #2 proposed by the Planning Board for the Flood Plain Ordinance as required by the Federal Emergency Management Association as follows:

To add Item IX. Variances and Appeals in accordance with NH RSA 676:5."

Amendment #3

"Are you in favor of the adoption of AMENDMENT #3 proposed by the Planning Board for the Flood Plain Ordinance as required by the Federal Emergency Management Association as follows:

To add that the Flood Insurance Rate Map, Flood Boundary Rate Map and Flood Insurance Study revised map panels shall have an effective date of May 2, 1995."

BUDGET OF THE TOWN OF RAYMOND, N.H.

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Raymond, in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Iber Holmes Gove Middle School gymnasium in said Raymond on Saturday, the eighteenth day of March, 1995, at ten of the clock in the forenoon, to act upon the following subjects:

Article #1

To see if the Town will vote to raise and appropriate the sum of Three Million, Eight Hundred Thirty Thousand, Three Hundred Fourteen Dollars ($3,830,314) to defray Town charges for the year ensuing. Said sum is exclusive of Special Articles No. 2,3,4,5,6 & 7. (Recommended by Budget Committee)

Article #2

To see if the Town will vote to establish a Capital Reserve Fund under the provisions of RSA 35:1, for the purpose of reconstructing the Pecker Bridge (Main Street bridge over Lamprey River), and to raise and appropriate the sum of Forty-Five Thousand, Five Hundred Dollars ($45,500) to be placed in this fund and to designate the Board of Selectmen as agents to expend.
(Recommended by Board of Selectmen) (Recommended by Budget Committee)

Article #3

To see if the Town will vote the following Special Warrant Article to approve the cost item included in the collective bargaining agreement reached between the Town of Raymond Board of Selectmen and the Raymond, N.H. Police and Dispatch Departments and Teamsters Local #633 of New Hampshire Union, which calls for the following increases in salaries and benefits over the following years:

Year	Estimated Increase
1993	$5,206.00
1994	$12,761.00
1995	$16,533.00

and further to raise and appropriate the sum of Thirty Four Thousand, Five Hundred Dollars ($34,500) for the 1993 (retroactive), 1994 (retroactive) & 1995 fiscal years, such sum representing the additional costs attributable to the increase in salaries and benefits over those of the appropriation at current staffing levels paid in the prior fiscal years.
(Recommended by Board of Selectmen) (Recommended by Budget Committee)

Article #4

To see if the Town will vote to raise and appropriate the sum of Fifty-Nine Thousand, Four Hundred Fifty-Six Dollars ($59,456.00) in support of the following Social Service Agencies;

Raymond School District Meeting

March 5, 1994

The Raymond School District Meeting was called to order at 1:05 p.m. in the Community Gymnasium of the Iber Holmes Gove Middle School by the moderator, J. Chandler Newton. The moderator led the assembly in the Pledge of Allegiance and the warrant was read.

Ballot Clerks:

Joan King
Assunta Ege
Joyce Bishop
Delmar Anderson
Marilyn Semple
Nancy Ladd
Kathleen Szczepanik
Marion Lovejoy

Method of Voting: Articles that were not voted on by secret ballot were to be voted upon by raising "orange" colored voting cards with the letter "E" printed on them, unless declared otherwise by the moderator. The moderator stated that a secret ballot could be requested by any five (5) registered voters prior to a vote; or seven (7) registered voters after a vote, if they dispute the vote. All names must be handed to the moderator on a slip of paper.

The moderator stated that Bradley's Simplified Rules of Order would be used to conduct the meeting, and they were read by the moderator.

At this time, Ramona Stevens, chairperson of the school board introduced the moderator, school district clerk, assistant superintendent, legal counsel, superintendent, members of the school board, and the student representative to the school board. Elizabeth O'Donnell, chairperson of the Budget Committee then introduced the members of the Budget Committee.

Article 1

Motion: By David Hoelzel, duly seconded by Ann Kitchen to see if the School District will appropriate the sum of $1,500,000.00 (One Million, Five Hundred Thousand Dollars) for the construction of a 250 student high school addition and for the purchase of furnishings and equipment in connection therewith; *to see whether this appropriation shall be raised by borrowing under the Muncipal Finance Act, or otherwise*, and to authorize the school board to take any and all actions necessary to carry out any vote hereunder; or to take any other action relative thereto.

Motion: By Neal Wiggin, duly seconded by John Stewart to move the question.

Motion to move the question voted by a show of cards. Voted in the AFFIRMATIVE.

The moderator stated that this was a bond issus item and the polls would be open for one hour; and that the article would need a two-thirds majority vote to pass.

The assembly voted on "pink" bond issue ballots with "yes" and "no" printed on them for Article 1.
The ballot box was opened and declared empty.
The polls were declared open at 2:29 p.m. for one hour.
The moderator declared the polls closed at 3:29 p.m.
Total Ballots Cast: 229

Yes:	52
No:	177

Article 1 voted in the NEGATIVE.

Article 2

Motion: By Ramona Stevens, duly seconded by Susan Clauson that the report of the auditors as set forth in the annual report of the School District be accepted and placed on file.
Article 2 voted by a show of cards. Voted in the AFFIRMATIVE.

Article 3

Motion: By Laura Begg, duly seconded by Ramona Stevens to see if the School District will vote to approve the cost items related to an increase in teachers' salaries and benefits attributable to the latest collective bargaining agreement entered into by the School Board and the Raymond Education Association, and to raise and appropriate the sum of One Dollar ($1.00) to fund those increases.
Motion: By Laura Begg, duly seconded by Ramona Stevens to pass over Article 3.
Motion to pass over Article 3 voted by a show of cards. Voted in the AFFIRMATIVE.

Article 4

Motion: By Sandra Ellis, duly seconded by Ramona Stevens to see if the School District will vote to raise and appropriate the sum of $212,651.00 (Two Hundred Twelve Thousand, Six Hundred Fifty-one Dollars) for the salary and benefits of additional certified staff.

Raymond School Board

Annual Report

By the end of May 1994, the School Board had developed the following set of goals for the Raymond School District.

- To develop a mission statement and District plan
- To present a resolution to the space needs problem at the 1995 School District Meeting
- To continue the process of developing a District-wide technology plan and to begin implementation of that plan
- To pursue the recommendations of the energy audit
- To pursue the accreditation process through the New England Association of Schools and Colleges (NEASC) concluding with an on-site evaluation during the 1996-97 school year

To begin implementation of these goals, we needed to first step back and get a clear picture of where we stand as a District.

Over the past year, an enormous amount of information about our schools has been gathered through the tireless work of many committees, administrators and professionals. Our Technology Committee has taken a thorough inventory of how technology is currently used in each School District building and has made recommendations of what equipment needs to be added to offer a more competitive level of technology education.

A Technical Study of our buildings, the condition of their systems and the possibility for expansion was conducted by Dan Bisson, TEAM Design of Londonderry. Concurrently, a demographic study of student population and its growth potential was being worked on by Dean Michener and George Corrette, from the Center for Educational Field Services, UNH. These studies were generated in response to our Space Needs/Building Committee's need to answer questions that have repeatedly been asked by our Community -- ie, Can we expand or build additional facilities on the Raymond High School site or not?; Can students be housed in the basement of the Iber Holmes Gove Middle School?; Thanks to the diligence of this Committee, we have answers to these questions and many more. Copies of the Space Needs/Building Committee Report as well as the complete Demographic and Technical Studies are available for review by contacting the SAU #33 Office. The final report of the Space Needs/Building Committee is also available through any Raymond School Board member or Space Needs/Building Committee member.

With the information gathered we can keep moving forward in pursuit of the goals established last May and will be presenting some of the steps in that pursuit for your approval at the March 11, 1995, School District meeting.

Having said that, I would like to take a moment to clarify the work of a school board. Each year we elect a group of people to the Raymond School Board who live in our Community. These five people are the eyes and ears of all Raymond townspeople. If they are doing their job, they will look at and listen to Community members' opinions of what 12 years of public education should offer their children. They will also hear and consider the opinions of their Administrators as to how this education can be offered. It is very likely that

the Board will also research options on its own. After this process is completed, the Board can consider all the options and make a decision based on which will give the townspeople the education they desire for their children at the lowest cost. If the Board is to truly function as the eyes and ears of its townspeople, it must then bring that idea before the Community. The Community should have the opportunity to hear what its Board considers to be the best option(s) and to question why or how that decision was reached. It is then the responsibility of each voter to consider whether or not they can support the Board's recommendation.

The point is that the Board is responsible to let the townspeople decide whether they want or can afford the education they believe should be offered. A Board who brings before the public only what they assume will be supported takes away the voters' right to choose. Many school boards have been condemned for "wanting everything" and although we may not like or be able to support the decision of our School Board I hope we will always have the right to make that choice.

There are many people who deserve praise and thanks for their hard work and perseverence this year. First, thank you to each member of the Board, your patience and support of this inexperienced Chair has allowed growth and learning that I would not have thought possible. Thank you to Superintendent Stratchko for being able to wear many different "hats". You are truly a *leader* in your District. To Assistant Superintendent Carroll and the entire SAU staff, we all appreciate your hard work support and ingenuity. Special thanks to the Administrative teams, faculty, and the staff of the Raymond School District -- You are the best!

Thank you to all who come out to attend Board meetings, or District meetings, to participate on committees, to vote or even call to express your opinion. You care enough to be part of the process -- we thank you.

Lastly, most sincere appreciation and thanks to my family. School Board is not something you work at, it's something you live. Thank you for being my answering service, my babysitting service and most of all, my strongest support.

Respectfully,
Laura J. Begg, Chair
Raymond School Board

Superintendent's Report

The major focus this year has been on the omnipresent issues that accompany the space problems in the District. Current student enrollment for the District totals 1,861. Readiness through grade three student enrollment totals 543 with an additional 26 students enrolled in the Preschool program. Iber Holmes Gove Middle School, grades four through eight total student enrollment is 824. Raymond High School has 468 students in grades nine through twelve. The School Board commissioned a demographic study and a technical study of the District's facilities to assist in planning for current and future enrollment. The Space Needs Committee using this information and independent research worked diligently for many months and produced a report that details the space problem and presents recommendations for a long term solution. The Committee, after extensive study recommends the construction of a 600 pupil elementary school and an addition of eight classrooms to Raymond High School. A copy of both of these reports can be obtained by contacting the SAU office.

Prior to writing this report I reread the report that I wrote approximately one year ago for the Town of Raymond Annual Report. I am still challenged by many of the same issues that I referred to last year. I still feel very strongly about the need to balance community resources so the integrity of the educational programs can be maintained without making the economic burden too great. The children of Raymond are the Community's most valuable resource and must be well cared for. In addition to the basic needs of food, clothing, and shelter they need to be protected and nurtured to develop physically and intellectually. Parents play the most important role in this process. However, the schools in the Community must assume the paramount responsibility for education. In order to adequately educate and prepare the children for the future the entire Community must form a partnership with the school system.

These are difficult times and present many challenges for all of us. That fact has not changed. What has changed are the skills and competencies that are required of our students today. If the essential skills required of the students today were compared to those required twenty years ago we would see a dramatic change. It is the School District's responsibility to prepare the students to not only acquire information, but to evaluate what they learn, make appropriate interpretations and apply the knowledge to real life situations. This requires students who are complex thinkers and are able to work collaboratively. In order to accomplish this paramount task the school system must set high standards of learning for all students and then provide resources for the students to realize the challenge. In order to meet the educational demands of the next century we must listen to one another and we must work together to provide the best education possible for the students of Raymond.

The Raymond School District Technology Committee, under the direction of Assistant Superintendent Thomas Carroll, has worked for the past year to develop a technology plan for the District. The goal of the Committee, made up of teachers, administrators, a member of the School Board and Community members, was to make recommendations for

the direction the Raymond School District should take as we attempt to prepare students for the twenty-first century.

The report the Committee has developed is not a blueprint. It is a framework--a vision that will need to be adjusted as we progress from year to year. The Committee has attempted to look five years into the future (the school year 1999-2000) and project what the Raymond School District should look like in terms of technology. The Committee has attempted to attach a dollar figure to each of the first three years of the plan. Priorities for years two and three may change as we learn how the new technologies impact the curriculum and as the cost of hardware and software fluctuate. The Committee thinks it essential that the Community understand that technology is not a one year expense, rather an on going investment in our students and the school system. The Committee hopes that the School Board and Community will give the report serious consideration as we continue to plan for the future.

Through the efforts of a number of our teachers, Raymond students and staff members have had the opportunity to take part in activities above and beyond our regular curriculum offerings. This past summer, the District was able to take part in the Governor's Summer Youth Works Program. The program was brought to the District through a New Hampshire Job Training Council Grant written and managed by Catherine Mooradin, Guidance Counselor at the Middle School. This program provided an opportunity for 19 Raymond students to obtain work and academic skills in a non-traditional setting.

Through the efforts of High School science teacher Bianca McRae, the New Hampshire Community Conservation Camp was held at Raymond High School. During their visits to Raymond High School, the campers developed a plan for ecologically sound development of the High School property. The plan presented to the public in September, addressed protection of wetlands and wildlife as well as numerous ideas for landscaping the area surrounding the High School. Another project developed by the High School science department is STEM. Through a grant from Public Service Company of New Hampshire, students will learn how to develop an energy audit. The project's instructors will show how the skills learned in mathematics and science classes are applied in a real world situation. The Raymond School District will continue to aggressively pursue grant funding to support projects that will enrich the student's experiences and provide training opportunities for the faculty, staff and administration.

The Raymond School District has set high standards and with the continued partnership and support of the Community those standards will be achieved.

Respectfully submitted,
Cheryl A. Stratchko
Superintendent of Schools

Lamprey River Elementary School

Principal's Report

The second grade cruise through the lush RAINFOREST during thier celebration of literacy last spring was spectacular. Giant murals covered the hallway walls from one end of the school to the other. The classrooms were packed with activities, projects, and most importantly, children who were both proud and eager to show off their accomplishments. What meant most to me was the cooperation and sharing of energy, ideas, and talents of parents, children, and teachers as they built a RAINFOREST in the school. This event is representative of the involvement parents have with the school and its varied activities.

Our volunteer program has been recognized as outstanding for the fifth year in a row by the State of New Hampshire Partners In Education Program. To receive this recognition, the L.R.E.S. Volunteer Program was required to meet strict program criteria for parent participation, documentation of volunteer activities, and the number of hours volunteers contribute to the school in a lengthy and detailed report. There were over 3,600 hours contributed to our school last year. With volunteer participation, we provide children with a variety of opportunities which otherwise would not be available. A sampling of these include Santa's Secret Store, one-to-one tutoring, writing moms, the media center computer lab, the Call-In program, special assembly programs, and the introduction of state-of-the-art computer technology in six of our classrooms. On any given day, the school is significantly enriched by the presence of our volunteers.

Last year, Mr. Tom Carroll, Assistant Superintendent, established a district-wide technology committee which includes parents, teachers, and staff to begin discussing and planning for the integration of technology into the schools. Thanks to the contribution of time, energy, and talents of parents who planned and proposed the media center computer lab during 1992-93, Lamprey River was in an excellent position to implement a two-year technology plan to purchase and place multimedia computer systems in six classrooms. Using these classrooms as models, we hope to learn about and evaluate the effectiveness of this exciting technology in the classroom. The children can't get enough of it. They have been described as graduates of "Nintendo Boot Camp" and take to the new computers like ducks to water - to use the old cliche. This pilot project is another shining example of the results of cooperation and collaboration between skilled and knowledgeable parents and educators.

The L.R.E.S. PTO continues to be a sparkplug for school programs and activities including the Volunteer Program, the Call-In program, the Media Center Computer Lab, Santa's Secret Store, the classroom technology project, school tours in August, parent programs such as Fred Gosman's *"How To Be A Happy Parent 'Despite" Having Children",* special assemblies for students, bringing live performances including the Kitchen Sink Theater, and their new newsletter - *The Bullfrog Reporter.* It is truly my pleasure to work with this talented, hardworking, and wonderful group of people.

In May 1994, virtually all third graders in New Hampshire participated in the first New Hampshire Educational Improvement and Assessment Program's educational assessment.

This challenging test, developed by Advanced Systems of Dover, NH, is intended to measure student progress in Language Arts and Mathematics. This new criterion referenced test is directly based on the curriculum frameworks for Language Arts and Mathematics developed for the State of New Hampshire. These frameworks state what children should know and be able to do at the end of grade 3. The standards set are quite high, providing a challenge to all public elementary schools in the state to begin using the results to analyze and revise our local curricula to meet them. Compared with all other third graders in the state, our results were similar.

Grade 3 Test Results (May 1994) Comparison*
School District with the State of New Hampshire

	Advanced	Proficient	Basic	Novice
Language Arts				
District	1%	9%	47%	40%
State	1%	15%	48%	33%
Mathematics				
District	1%	4%	45%	47%
State	2%	16%	45%	34%

*chart shows percentages of students falling into each proficiency category.

However, both the school and the state results indicate that we have room for improvement by creating different and more challenging learning opportunities for our students.

Raymond High School students also continue to be involved in a positive and productive way with elementary students. On two occasions, students from Mrs. Scantlin's Children's Literature classes proudly read books they wrote and illustrated to wide-eyed elementary students. The thirty high school students who participated in the Amigo's program faithfully met with their third grade counterparts in a delightful series of activities on Friday afternoons in our media center. They are quite good with the children and always impress me with regard to how well they relate to adults during the Amigo's Parent Night.

Pennies - Pennies - Pennies! Since 1988, L.R.E.S. students have collected over 300,000 pennies during the week before the Christmas vacation. This money is provided to the Rockingham County Community Action Program's *Food Pantry* to purchase food supplies to meet family emergencies here in Raymond and the surrounding communities. This kind of gift is one that keeps giving throughout the year, and for the children helps to reinforce the idea that the holiday season is one of giving.

Hail and farewell. We really do try to hire the best personnel available for our school. Apparently, other school districts think we are doing a solid job in this area. This fall, the Goffstown school district selected Ms. Cindy Murrell for their new principal at Bartlett Ele-

mentary School. This led us to a search for a new assistant principal at Lamprey River Elementary. We are pleased with the addition of Mr. Dana Archibald, who started two days before the Thanksgiving holidays. Welcome aboard!

In closing, it is my pleasure to recognize one of the state's outstanding school secretaries, Mrs. Betty Goldthwaite, for twenty-five years of service to the Raymond School District. She started in 1969 as a brand new secretary to Ralph Minichiello who was a brand new principal as well. They learned the ropes together. Mrs. Goldthwaite has seen many changes over the past quarter century, going from carbon paper and a hand-crank duplicator to high speed copiers and computers. Still some things stay the same - regardless of changes in faculty and staff, the school has kept a clear focus on caring for and giving children a good education. She says of her twenty-five years, "I wouldn't have it any other way. I'd do the same thing all over again." Thank you, Betty, for all you've done.

Respectfully submitted,
Roderick D. Crepeau
Principal

A quiet moment on the playground.

Iber Holmes Gove Middle School

Principal's Report

As I write this, our enrollment has climbed to 797. This represents an increase of 52 students over the previous years enrollment.

Fortunately during the past summer we were able to create three additional classrooms within the building and add three additional teachers. This has allowed us to maintain all of our academic classes at less than 30 students. We are most grateful that we were able to do this.

While all academic classes are below 30, our physical education classes are *all over thirty*. These classes have from 32 to 46 students in them. This is beyond excessive. We need additional supervision for physical education classes.

Next year enrollment in Grade 6 will rise from *145* to *180* students. We will need an additional teacher and an additional class space to keep 6th grade classes at less than 30 students.

This April many of our 6th grade students will travel to *Nature's Classroom*. Many of our 8th grade students will undertake the annual trip to Washington, D.C. Each of these trips is an established tradition. At present no public funds are needed to finance these valuable trips. We are most grateful to everyone who has supported our fundraising activities to help pay for them.

Our co-curricular activities are going well.

Our soccer team was undefeated this year posting a 10-0 record. Congratulations to Coach Mike Brazeau and his fine players. As I write, our girls and boys basketball teams and our award winning cheerleaders are off to a good start under coaches Anna Parrill, Steve Gelinas and Vicki Ruane.

In addition to the athletic teams we have many other valuable co-curricular activities; Rocket Club, Math Counts, Intramural Volleyball, Student Council, Newspaper, Chess Club, Band, 4th and 5th grade Chorus and the Yearbook Committee. These groups make a major contribution to our total program.

In the spring of 1995, our Grade 6 students will be tested with the N. H. Department of Educations recently adopted Educational Improvement and Assessment Program test to measure student academic achievement. Third grade youngsters were given the Grade 3 version of this test in the spring of 1994. We are most anxious to see how our youngsters perform on this test. Results should become available in the late fall of 1995.

Last fall, we inaugurated the practice of having a reception in the gymnasium for students who attained the honor roll at the end of the first quarter. Parents were also invited to attend. We have had much positive feedback regarding this event and will continue to hold these receptions for the remainder of the year.

Our Parent Core Group has continued its wonderful work and generosity. I don't know what we would do without its support and kindness still too numerous to mention.

In closing, we would like to say that it is a pleasure for me to be able to work in Raymond with its fine children and I would like to thank our parents for their continuing help and support.

Edward W. Donovan

Raymond High School

Principal's Report

The past year at Raymond High School has been characterized by a greater sense of community within our school and in programs seeking to build bridges between the town and school. The School Improvement Program (S.I.P.) made up of students, teachers, and community members has worked hard to focus attention on a number of projects including a prolonged focus on student outcomes that need to be addressed as a part of each graduate's educational experience. "S.I.P.'s" work has also resulted in the successful implementation of the Community Service project which allows our older students to work with non-profit agencies in town donating their energies and gaining credit at the same time.

As a part of the effort to bridge the gap between school and community, our faculty has initiated a "teacher shadowing program" that allows interested community members to visit Raymond High School by following a teacher through his or her school day. If you call 895-6616, you can leave a message and a teacher will return your call to set up a time when any adult community member can come in and shadow a teacher for a morning, an afternoon, or a full day.

The Rotary club in coordination with the parents of our senior students have also provided a rich experience for our graduates as they have planned, chaperoned, and raised funds for the chemical free graduation party. I am pleased to announce that our area Rotary Club was honored as a recipient of the N. H. Partnership in Education award for their continued efforts in making this event such a strong and enduring tradition.

This sense of community has also grown within our school. This year for the first time, Raymond High School has brought back a number of our more severely developmentally challenged students who had attended schools out of district in the past. After providing opportunities for staff training, appropriate programs were set up in district so that these students could find a true educational home here in Raymond. I am pleased to report that these students have found great success here and that Raymond High School was honored to be chosen as a site recipient of the "Turning Points Project" which is initiated through the Institute on Disabilities in Durham, N.H. This award provides our staff with rich training resources in all areas of "inclusion" at no cost to our district.

Academic achievement and educational development are both areas of focus that have shown significant progress over the last few years. In 1987 only 23% of our students went on to further education after graduation; in 1994, 54% did! In the years 1988-1990, our drop out rate averaged 8.57%; between 1992-1994, the average was 2.6%! The number of students taking the SAT tests has more than doubled in four years. For the first time, that I am aware of, in the history of Raymond, we have a graduating senior who is a national merit semi-finalist. One Raymond High School senior scored 1370 and another 1300 on their SAT's this year. And finally, during our last opportunity to compete in the Granite State Challenge, Raymond juniors and seniors beat Franklin and Timberlane to make it to the quarter finals!

But it is not merely the exceptional achievement of our students that I am so proud of. It is the commitment and diligence of our teachers. Program after program is being offered without any stipends for the extra work involved -- but simply because our teachers believe that these students deserve to be enriched in their educational experience. Clubs such as Earth Now, the French Club, the Spanish Club, The RHeSayist (literacy magazine), and programs such as Project Perspective, Math After Hours, the Raymond Advocacy Program, Amigos, Peer Outreach, the Arts Festival, and others are offered to our students because these teachers care about the complete education of our children. There are many other RHS committees working with our at-risk population, school restructuring, "Tech-Prep", technology, grading policies, and all the myriad issues which face an educational institution entering the twenty-first century.

Educators in other districts are impressed with the programs that have been adopted in our town. Programs such as heterogeneous grouping, the community service project, the advisor-advisee program, the School Improvement Program, cooperative learning, the sailing/adventure program, student court, student representation on the school board, and the student intervention teams working with our at-risk youth are just some of the aspects of restructuring which are already implemented in our schools today. Visitors to our school district have called Raymond the "best kept secret in New Hampshire education".

I am deeply proud of the educational progress that has been achieved in our school over these last few years and I am honored to be able to work with these dedicated faculty and support staff personnel that make Raymond High School a place of continued educational growth for our students.

Sincerely,
Christopher L. George
Principal

Report of the Raymond Food Service Department

Now, more than ever, this is a time of change in school foodservice. The key to successfully manage change is to improve what is deficient while maintaining what works. On a national level, there are many changes in the works for the upcoming year. The current meal pattern requirements, as they have stood for over 40 years, will almost certainly be redesigned. There is also a move in Congress to curtail entitlement programs which would greatly affect the way school foodservice is funded. I will be working with these changes, when and if they occur, to ensure the best nutrition possible for the lowest cost to the children of Raymond.

On a local level, there were several changes this past year. At Iber Holmes Gove Middle School, we have added a salad bar which gives all students and faculty a lower fat choice on a daily basis. At Lamprey River Elementary School, we introduced a breakfast program. After over 3 months in operation, the program seems to be going well. We are feeding more than 350 students day, which means almost 70% of the students are eating breakfast at school. This is a very high percentage compared to state averages.

Participation rates for lunch are as follows: High school, 305 meals a day or 73.9%; Middle school, 455 meals a day of 60.2%; and Elementary school, 335 meals a day or 63.8%. This percentage is slightly down from last year at the Elementary School, but the total number of meals served at that school, counting breakfast, is 300 a day more than last year.

Even though the number of students participating in the food service program is up, we are still operating in an entirely self sufficient manner. No tax dollars are used to support the program and lunch prices are still among the lowest in the state.

Many of the programs we implemented last year, including aluminum recycling, are still in place. We will be sponsoring another can drive in the spring to raise funds for the Environmental Science Program. Last year's drive went well and with much student and community support, we raised almost $200.00 for this purpose.

I strive to have the Food Service program seen as not just a feeding program, but also an educational resource to the community. In conjunction with the guidance department at the high school, we currently have two student aides, who are interested in foodservice careers, spend a free period in the kitchen getting real world food service training and experience. Additionally, I will be in several classrooms this winter and spring, teaching children about nutrition and providing teachers with curriculum guides and other information supplied free of charge through the State Department of Education.

Respectfully submitted,
Timothy Goossens
Director of Food Service

2003	155	223	170	172	165	168	165	186	197	220	169	171	149	565	880	710	2,155
2004	160	230	170	172	171	171	162	160	187	222	217	157	148	572	851	744	2,168

Projected enrollments are based on a five year average cohort survival ratio.

Space Needs/Building Committee Final Report

November, 1994

Introduction and Chronology of Activities

With the submission of its report in November 1993 to the School Board, activities of the Space Needs/Building Committee (SN/BC) were suspended until further action by the School Board.

In December, the School Board requested that the SN/BC continue and it met again on December 20. Discussion was held relative to the up-coming public hearing scheduled by the School Board seeking public input relative to the expenditure of $15,000.00 for school planning purposes. With an affirmative vote by the board to expend these funds for the services of an architect/engineer to conduct certain technical studies, the SN/BC was requested to act as a subcommittee to conduct first-round interviews of prospective firms.

At this time, the SN/BC also requested that information relative to the numbers of pre-school children in the community be ascertained. Predictions of new housing and an analysis of what effect the "recession" of the late 80's and early 90's had on the community and how this would be reflected in the next ten years was also investigated. The School Board voted to contract Dean Michener of the Center for Educational Field Services, University of New Hampshire, to perform a demographic study of student enrollment to be completed in conjunction with the technical study; both of these studies to be completed in June or early July of 1994. (*see exhibit A)*

The SN/BC conducted interviews with four architectural/engineering firms and recommended that the School Board consider further the firms of H. L. Turner Group of Concord and Frank P. Marinace of New Hampton. In May, the School Board selected TEAM Design, Inc. to conduct the technical study for the district. (*see exhibit B)*

On July 8, 1994, members of the SN/BC were invited to attend a meeting to hear the results of the Michener report and a preliminary report of the technical needs study by TEAM Design. At this meeting, it was also reported that the Raymond School Board had determined that the most educationally appropriate organization of grades for the district would be as follows:

Grade Configurations	
Elementary	Preschool - Grade 5
Middle	Grades 6 - 8
High	Grades 9 - 12

On August 19, 1994, the SN/BC held its first meeting with Dan Bisson of TEAM Design, Inc. wherein projected enrollments, possible building options, and preliminary cost

estimates were discussed. Work of the committee during the fall of 1994 focused on three areas:

1. Determination of present site capabilities, possible acquisition of adjacent land, and investigation of other sites in the community. (*see exhibit C)*
2. Determination of student population centers through information from transportation committee, building data, and further refinement of projected student popuation figures of the Michener report.
3. Determination of priorities and a recommendation.

On September 26, the committee reached the following consensus as to the order of priority in solving the space needs:

1. The removal of grades 4 and 5 from the Middle School.
2. The enlarging of high school facilities, particularly in the science and computer lab areas.
3. The elimination from further consideration, of the viability of renovation to the Middle School due to the cost of replacing the existing 100 wing, thereby initiating extensive renovation to the remaining portion of the building for code compliance as outlined in the technical study.

Recommendations (Based on 10-year projected student enrollment)

Elementary School

Immediate Goal

1. To build a new elementary facility to house Readiness through grade 2 on Harriman Hill Road. The core of the new facility will be constructed for 600 students with initial classroom space to be built in 1995 for 400 students using the adjacent access, septic reserve, and well on the high school site. This will necessitate the acquisition of adjacent land on Harriman Hill Road.
2. To conduct necessary alterations to Lamprey River Elementary School to accommodate student population including but not limited to a new heating system as suggested in the recently conducted Energy Study.

Long-Range Goal

To add additional classrooms to the newly constructed elementary school:

1. When public kindergarten is incorporated into the district program; or
2. As future enrollments require additional space.

High School

Immediate Goal

1. To construct 8 classrooms consisting of 2 science labs, 2 computer labs, and 4 general classrooms at an estimated cost of $1,000,000.00* to accommodate enrollment of up to 700 pupils.
2. To install a sprinkler system at the Raymond High School.*

* estimated cost of High School addition and sprinkler system dependent upon concurrent elementary school construction on adjacent land.

Long-Range Goal

1. To expand the Raymond High School core facility and add additional classrooms necessary to accommodate an enrollment of up to 1,000 students.

Middle School

Immediate Goal

1. To remove the portable classrooms at this site and eliminate the housing of Grades 4 and 5 in this facility. Grades 3, 4, and 5 will be housed at the Lamprey River Elementary School. The Middle School building would then accommodate a population of 600 students which should, according to present growth estimates, take us through the year 2005.

Other Recommendations

That any bond issue proposed be amortized over a period of not less than 30 years in order to:

1. Minimize as much as practicable, the impact of additional principal and interest to be borne by local taxpayers, and
2. Allow for and be able to accommodate the operating budget increases each year as the result of increasing enrollments and costs.

(*exhibit A*)

Demographics

The demographics study conducted by Dean Michener and George Corrette of the Center for Educational Field Services, University of New Hampshire, using historical data on births, housing development, school enrollments, and population makes estimates on the direction of pupil enrollments over the next decade.

The researchers were quick to point out that enrollment projection is an inexact science at best. For the most part, the enrollment projections are based on "Cohort Survival" trends of current enrollment by grade. These trends analyze the relationship of survival of student enrollment from one grade to the next and first grade enrollments to births six years prior. Several Cohort methods were used, each using different weights and averages. The School Board, as well as the Space Needs Committee decided to use the worst-case enrollment estimates. This five-year average progression predicts the districts enrollment in the year 2005 as follows:

Grades	Enrollment
R-5	925
6-8	485
9-12	767
Total	2,177

Further, the committee refined these estimates to eliminate peaks due to abnormal birth rates in past years and to include some excess capacity for our long-term plans.

These assumptions led to the following enrollment projections on which our space needs recommendations were based:

Grades	Enrollment
R-5	1,000
6-8	600
9-12	800
Total	2,400

The complete demographic study with updates for the 94-95 school year enrollment is available from the SAU office.

(exhibit B)

Technical Study

The facility analysis included appraising the existing school facilities regarding the following:

- Life Safety and Building Codes
- Energy Conservation
- Handicap Accessibility
- Plumbing systems
- Fire Protection and Fire Alarm Systems
- Electrical Systems
- Educational Programs
- Space Utilization

The report was divided between the three schools. A summary of the comments and conclusion of the analysis by school follows:

Lamprey River Elementary School

Current Enrollment - 543

Building capacity - 600

The school was constructed in 1976 with four modular classrooms attached in 1986. The interior was originally designed as an open-concept school (i.e., very few permanent interior walls were constructed) with many walls added over time to accommodate program needs.

1. The LRES site could support an addition which could house an additional 280 students. Ledge and property boundaries restrict further additions.
2. The school is currently heated with electricity; it should be converted to a fossil fuel system with proper ventilation.
3. Any addition would require major electrical and mechanical work.
4. Any addition would necessitate sprinkling the school.
5. Special education programs and administration/support services have inadequate space currently.
6. Storage space is non-existent.

7. The school lacks a dedicated art room.
8. The music room is presently in another building.
9. A number of the present classrooms are below the state minimum for square footage requirements.

LRES Summary

1. The present LRES site would not support an addition that would satisfy the requirements of grades 4 and 5 (i.e., 400 additional students) or allow space for additional elementary needs.
2. Any major addition to LRES would require the school district to immediately comply with all new BOCA and ADA/Barrier Free Code requirements thereby adding costs that would not otherwise be incurred at this time.
3. From an educational perspective, introducing more students at LRES through the addition for 280 students creates a large school that, at the elementary level is not an ideal environment for the student.

Iber Holmes Gove Middle School

Current enrollment - 824

Building capacity - 625

The original building was a three-story, wood-framed building (currently known as the 100 wing) built in 1913. The wood-frame building had numerous additions in 1930, 1931, 1938, and 1948. The 200 wing was added in 1959 followed by the 300 wing in 1965. The gym was added in 1975 and three additional classrooms in 1984. Portions of the 100 and 200 wings were renovated in 1988. Modular classrooms were added to the site three years ago as a "temporary solution" to the overcrowding at the school. The building has grown to approximately 74,500/sf and currently houses grades 4 through 8.

Of all the district buildings, IHGMS has the most significant problems. Highlights of the facility appraisal follow:

1. The site may not support future additions due to limited acreage available and the restrictive covenants on the recreational land funded through Bureau of Outdoor Recreation funds.
2. The septic capacity of the site needs to be verified, however it appears there is room to expand the leach fields to increase student population by 200 students.
3. The heating and ventilation systems is outdated, inefficient or non-existent. Any addition/renovation of the school would likely necessitate major and costly upgrading of these systems.
4. Any future addition at this building would require major electric upgrades or replacements.
5. The 100 wing has some small, undersized classrooms which are below state minimum square foot requirements.
6. Any renovation/addition of the school would necessitate sprinkling of the building and compliance with the new ADA/Barrier Free Design Codes.

IHGMS Summary

1. Any additions at the middle school would need to remain within the existing footprint of the building due to property line constraints, well head protective radius and the federal grant funded recreation area behind the school.
2. The problems noted within the 100 wing, the oldest part of the school, would likely best be solved through the demolition of this wing and rebuilding on the same site.
3. Any renovation/addition of this magnitude would trigger the need to comply with the updated/new BOCA codes as well as the ADA/Barrier Free Design requirements.

Raymond High School

Current enrollment - 468

Building capacity - 500

The Raymond High School was constructed in 1988 to house 500 students with a core facility for 700 students. The site is a 60.5+/- acre parcel of land that consists of some wetlands as well as ledge.

1. The recommended capacity figure for a high school is 80% to allow for appropriate programming.
2. Any expansion of the present building would require that the facility be sprinkled to meet local fire codes. Sprinkling of the RHS would cost in excess of $250,000.
3. Student work stations are not handicapped accessible in such courses as Science Labs, Home Economics, Drafting, etc.
4. Bathrooms in the teachers rooms are not handicapped accessible.
5. The RHS site has additional septic capacity to support future expansion. This has been confirmed by the digging of test pits in September 1994 as reported to the School Board by Appledore Engineering.
6. The electrical system can support further expansion of the facility.
7. An expansion of the RHS would require that the school district be in compliance with the new BOCA and ADA/Barrier Free Design Codes.
8. Sufficient space is currently lacking in the Science, Industrial Technology, Dining, Media and Administration areas.

RHS Summary.

1. RHS is presently in compliance with the necessary codes.
2. The site would accommodate an expansion of the septic system to allow for additions to the present high school.
3. An additional recommendation is to monitor the waste usage to collect data on actual water use. This could allow a savings in the development of a new leach field if usage is below state requirements. (It is believed that usage is significantly below state requirements and therefore would not necessitate actual leaching area, only space available to house such a field if needed.)

N. B.
In addressing the technical needs of the district, there are two major concerns that have been mentioned in regards to each of the buildings. These concerns are as follows:

1. If any existing structure is increased in size, the entire structure shall be made to conform with the requirements of the new BOCA Code. This means that any renovation to any structure may require sprinkling of the building in its entirety.
2. If any existing structure is enlarged in excess of 25% of the fair market value of the real estate the entire facility shall meet the requirements of the ADA/Barrier Free Design Codes.

The two above requirements have the potential to significantly inflate the cost of any addition or renovation to beyond economic feasibility.

(*exhibit C)*

Site Studies

When it became apparent that additional elementary facility space would be needed, the SN/BC formed a subcommittee for site investigation. This subcommittee was charged with:

1. Investigating all town-owned properties of 11 acres or more
2. Investigating centrally-located privately-owned properties as directed by the SN/BC

Criteria

The committee used the following criteria for land investigation:

1. Parcel must include at least 11 acres (this would meet standards for state building aid)
2. It would be preferable for the parcel to have access to town water
3. It would be preferable for the parcel to be centrally-located to save on transportation costs and maximize on resource sharing
4. Parcel should be as "buildable" as possible (i.e., ledge, wetland issues, etc. to be predetermined)
5. Purchase price

Town-owned Properties

The subcommittee met with Raymond Code Enforcement Officer, Richard Mailhot, to find out exactly what 11+ acre properties the town owned and what, if any, site information was available on these properties. Four properties warranted further investigation:

1. *Water Dept. land adjacent to LRES* - Dan Bisson of TEAM Design and Eric Weintraub of Appledore Engineering examined the site maps of this property and conducted an on site evaluation as well. It was their opinion that the size and shape of the available piece of property coupled with the steep grade, wetland area, and large ledge deposit between LRES and this site would make this a very expensive property to develop. It was also their opinion that the resulting area gained for building would be too small for our needs.

2. *Map 001 Lot 003, Hooke Rd.* - There were no site maps of this 50 acre parcel. Richard Mailhot suggested that Kathleen Stockley, Chairman of the Conservation Commission, be contacted for information regarding this property. Mrs. Stockley had extensive knowledge of this piece of land, stating that it contained extensive wetlands on one side and the majority of the back of the property as well as a large area of ledge in the center with very steep slopes. Further, Mrs. Stockley said that the buildable portions of this property were being divided into lots to be used in the Dearborn land exchange.
3. *Norris Farms/Flint Hill* - This property located on Nottingham Rd. has many interesting geological features including ravines, fault lines, cliff areas, wetlands, and huge ledge deposits. However, because it is adjacent to the rear of the present RHS property, contains well over one hundred acres, and has extensive site and soil maps available, it was investigated by Dan Bisson of Team Design and Eric Weintraub of Appledore Engineering. The conclusion was that even though the area is vast, this site contains no suitable area large enough for a new facility to be built without extensive site work. This property was considered an impractical and extremely costly site for a new facility.
4. *Map 006 Lot 048-008, Main St.* - This 19.79 acre parcel is situated behind the homes on the left after passing under Route 101 on your way from the center of town to Route 107. The property itself is considered buildable. However, there is a large wetland swamp area where the access road would need to be built according to site maps and Mr. Mailhot's investigations. Because of the need to acquire numerous permits for the state and the need to replace any wetland area in kind, this would be a difficult and expensive property to develop.

Town-Owned Properties Summary

After investigating the available town owned land, it was concluded by the SN/BC that none of these properties were cost-effective sites for a new facility.

Privately-owned Property Summary

1. After eliminating the available town owned properties as cost-effective building sites, the SN/BC directed the subcommittee to research centrally-located privately-owned properties.
2. At the conclusion of these investigations, it was the consensus of the committee to suggest that the School Board look into the possibility of acquiring property adjacent to the present RHS site on Harriman Hill Rd. for placement of a new elementary facility as well as reserve septic capacity and additional access to the RHS site.

Raymond Cooperative School District Planning Committee

Summary Report

**The committee was established in March 1992 and consists of three members: Ann Kitchen (Chair), Peter Bogrett (Vice-Chair), and Sandra Ellis (School Board Rep).

Year One 1992-1993

Letters of inquiry sent to towns of Candia, Deerfield, Epping, and Fremont. Met with responding towns Candia, Epping, and Fremont (Individually and in groups) to discuss and exchange information concerning some of the problems we face within our respective school districts and some possible implications for any in the future.

Conclusions following first year investigation:

1. Interests in a cooperative school centered on high school level; grades nine through twelve.
2. A cooperative venture would require the construction of a new facility.
3. Once a cooperative is formed on paper, another 5-7 years is needed to establish and pass articles of agreement and construct facility.
4. Raymond's space needs are immediate. Candia, Epping and Fremont's needs are more flexible (Have a more flexible time frame within which to come up with a viable solution for their concerns.)

Year Two 1993-1994

Drafted and mailed a survey to Raymond residents seeking community input to help identify and evaluate what educational factors are important to the town and to assess how residents felt about a cooperative school district. Began meeeting with Deerfield in addition to other towns mentioned. Discussed need for updated demographic information for comparison purposes.

Conclusions following second year investigations:

1. Survey Results
   a. Majority of respondents needed more information about a co-op.
   b. Top three educational factors affecting Raymond: Quality of education, tax rate, and keeping class size under 30 students per room.
2. Identified some advantages and disadvantages of a cooperative:
   a. Advantages: Broader curriculum/opportunities, more space, increased competition, schedule flexibility, ?cost efficiency, increase building aid. (First four affected by increase student population.)
   b. Disadvantages: Loss of self-government, time frame for implementation, creation of new political entity, construction, transportation.

Year three 1994-to date

Continued meeting with Deerfield discussing commonalties and identifying differences within towns' makeups and educational philosophies. Sponsored a Co-op High School Information Night. Given the directive from those participating at the Information Night to actively pursue a planning board to develop articles of agreement for the participating communities

to address as soon as possible. Demographic Study projecting school enrollments to the year 2003 was commissioned by the Raymond School Board and completed in June 1994. Received a letter from Deerfield June 15, 1994 regretfully withdrawing from the active pursuit of a co-op with Raymond at this time. Sent letters of inquiry to Candia, Epping, and Fremont inviting them to pursue a cooperative planning board with Raymond. To date none are ready to make a firm commitment. Continuing to maintain open lines of communication with any interested towns.

Independent Auditor's Report on the Internal Control Structure Based on an Audit of General Purpose Financial Statements Performed in Accordance with Government Auditing Standards

To the Members of the School Board
Raymond School District
Raymond, New Hampshire

We have audited the general purpose financial statements of the Raymond School District, as of and for the year ended June 30, 1994, and have issued our report thereon dated September 9, 1994.

We conducted our audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement.

In planning and performing our audit of the general purpose financial statements of the Raymond School District for the year ended June 30, 1994, we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide assurance on the internal control structure.

The management of the Raymond School District is responsible for establishing and maintaining an internal control structure. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of general purpose financial statements in accordance with generally accepted accounting principles. Because of inherent limitations in any internal control structure, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operation of policies and procedures may deteriorate.

For the purpose of this report, we have classified the significant internal control structure policies and procedures in the following categories:

Activity Cycles

- Budgeting
- Treasury or financing
- Revenue/receipts
- Purchases/disbursements
- External financial reporting
- Payroll/personnel
- Data processing

For all of the internal control structure categories listed above, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation, and we assessed control risk.

Under the standards established by the American Institute of Certified Public Accountants, reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control structure that, in our judgment, could adversely affect the School District's ability to record, process, summarize and report financial data consistent withe the assertions of management in the general purpose financial statements. A material weakness is a reportable condition in which the design or operation of one or more of the internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities, in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might constitute reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses as defined above.

We are pleased to report that, during the course of our review of internal controls, no material weaknesses in the School District's accounting systems and records were identified. Minor weaknesses or other considerations coming to our attention were generally procedural in nature and dealt with administrative or recordkeeping practices. In these instances, we made specific recommendations or provided instruction to those individuals involved during the course of our audit fieldwork.

This report is intended solely for the information and use of management and others within the administration. This restriction is not intended to limit distribution of this report, which is a matter of public record.

and to raise and appropriate the sum of $117,471.00 (One Hundred Seventeen Thousand, Four Hundred Seventy One Dollars) for the 1995-96 fiscal year, such sum representing the additional costs attributable to the increase in salaries and benefits over those paid in the prior fiscal year. (Recommended by School Board) (Recommended by Budget Committee)

6.) To see if the District will vote to approve the cost items included in the collective bargaining agreement reached between the Raymond School District and the Raymond Educational Support Staff which calls for the following increases in salaries and benefits:

School Year	Amount
1995-96	$29,035.00
1996-97	$33,797.00(estimated)

and to raise and appropriate the sum of $29,035.00 (Twenty Nine Thousand Thirty Five Dollars) for the 1995-96 fiscal year, such sum representing the additional costs attributable to the increase in salaries and benefits over those paid in the prior fiscal year. (Recommended by School Board) (Recommended by Budget Committee)

7.) To see if the School District will vote to raise and appropriate $15,000.00 (Fifteen Thousand Dollars) to install a sprinkler system in the modular classrooms at the Iber Holmes Gove Middle School. (Recommended by School Board) (Not Recommended by Budget Committee)

8.) To see if the School District will vote to create an Expendable Trust Fund under RSA 198:20-c for the purpose of funding a Technology Plan for the 1995-1996 school year. To appoint the School Board to be the agents to expend this fund, and to raise and appropriate, from surplus, the sum of $50,000.00 (Fifty Thousand Dollars) to be placed in the aforesaid fund and authorize the use/transfer of up to 50% of the June 30, 1995 fund balance for this purpose. (The amount to be placed in the fund will be the lesser of either $50,000.00 (Fifty Thousand Dollars) or 50% of the June 30, 1995 fund balance.) (Recommended by School Board) (Not Recommended by Budget Committee)

9.) To see if the School District will vote to raise and appropriate the sum of $10,000.00 (Ten Thousand Dollars) and place it in the Capital Reserve Fund for the renovation of existing buildings and the construction of additional school buildings. (Recommended by School Board) (Not Recommended by Budget Committee)

10.) To hear a report of the Cooperative School Study Committee.

RAYMOND SCHOOL DISTRICT

STATE OF NEW HAMPSHIRE

TO THE INHABITANTS OF THE SCHOOL DISTRICT, IN THE TOWN OF RAYMOND, NEW HAMPSHIRE, QUALIFIED TO VOTE IN DISTRICT AFFAIRS:

You are hereby notified to meet at the Community Gymnasium at the Iber Holmes Gove Middle School in said District, on the eleventh day of March, 1995, at One P.M. in the afternoon to act upon the following articles:

1.) To see if the District will appropriate the sum of $5,736,912.00 (Five Million Seven Hundred Thirty Six Thousand Nine Hundred Twelve Dollars) for the construction of an elementary school and of an addition to Raymond High School, and for the purchase of furnishings and equipment in connection therewith; and for the purchase of 7.5 acres of land from Sigmund Lachut located at Harriman Hill Road, Tax Map 9-Lot No. 43-2, 43-3, and 43-4 to see whether this appropriation shall be raised by borrowing under the Municipal Finance Act, or otherwise; and to authorize the School Board to take any and all actions necessary to carry out any vote hereunder; or to take any other action relative thereto. (Recommended by School Board) (Recommended by Budget Committee)

2.) To see if the School District will raise and appropriate the sum of $90,000.00 (Ninety Thousand Dollars) for the purchase of 7.5 acres of land from Sigmund Lachut located at Harriman Hill Road, Tax Map 9-Lot No. 43-2, 43-3, and 43-4. (Recommended by School Board) (Recommended by Budget Committee)

3.) To see if the School District will authorize the School Board to convey a portion of the School District's property at Harriman Hill Road, Tax Map 9-Lot No. 43-2, 43-3, 43-4 to Mr. Paul Veilleux in exchange for Mr. Veilleux's conveyance to the Raymond School District of a portion of property, Tax Map 9-Lot No. 43-1, of like value adjacent to the District's property at Harriman Hill Road, all on such terms and conditions as the School Board deems are in the best interest of the School District.

4.) To hear the report of the auditors and pass any vote relating thereto.

5.) To see if the District will vote to approve the cost items included in the collective bargaining agreement reached between the Raymond School District and the Raymond Education Association which calls for the following increases in salaries and benefits:

School Year	Amount
1994-95	$0.00
1995-96	$117,471.00

STATE OF NEW HAMPSHIRE

SCHOOL WARRANT
FOR ELECTION OF OFFICERS

TO THE INHABITANTS OF THE SCHOOL DISTRICT, IN THE TOWN OF RAYMOND, NEW HAMPSHIRE, QUALIFIED TO VOTE IN DISTRICT AFFAIRS:

You are hereby notified to meet at the Community Gymnasium at the Iber Holmes Gove Middle School in said District, on the fourteenth day of March, 1995, at Seven O'Clock in the morning to act upon the following subjects:

1. To choose one School Board Member for a one-year term.

2. To choose one School Board Member for a three-year term.

3. To choose one School Board Member for a three-year term.

The polls will remain open from Seven O'Clock in the morning until Seven O'Clock in the evening and as much longer thereafter as the voters of the School District, at the beginning of the meeting, may vote.

Given under our hands and seal this 16th day of February, 1995.
